1. Project Information and Objectives

1.1 Project Scope

The aim of this project is to establish a link between customers and employees. It includes five roles (admin, user, nanny, babysitter and cleaner). Users can see servants in a list and search for their city or job.

1.2 Users

User: We can say user to customer. User can see servant list, make an appointment with a servant, rate a servant, search for servant, edit profile and add money to their balance.

Admin: Admin can do everything that user do. Besides, he/she can approve/delete improvement servants applications.

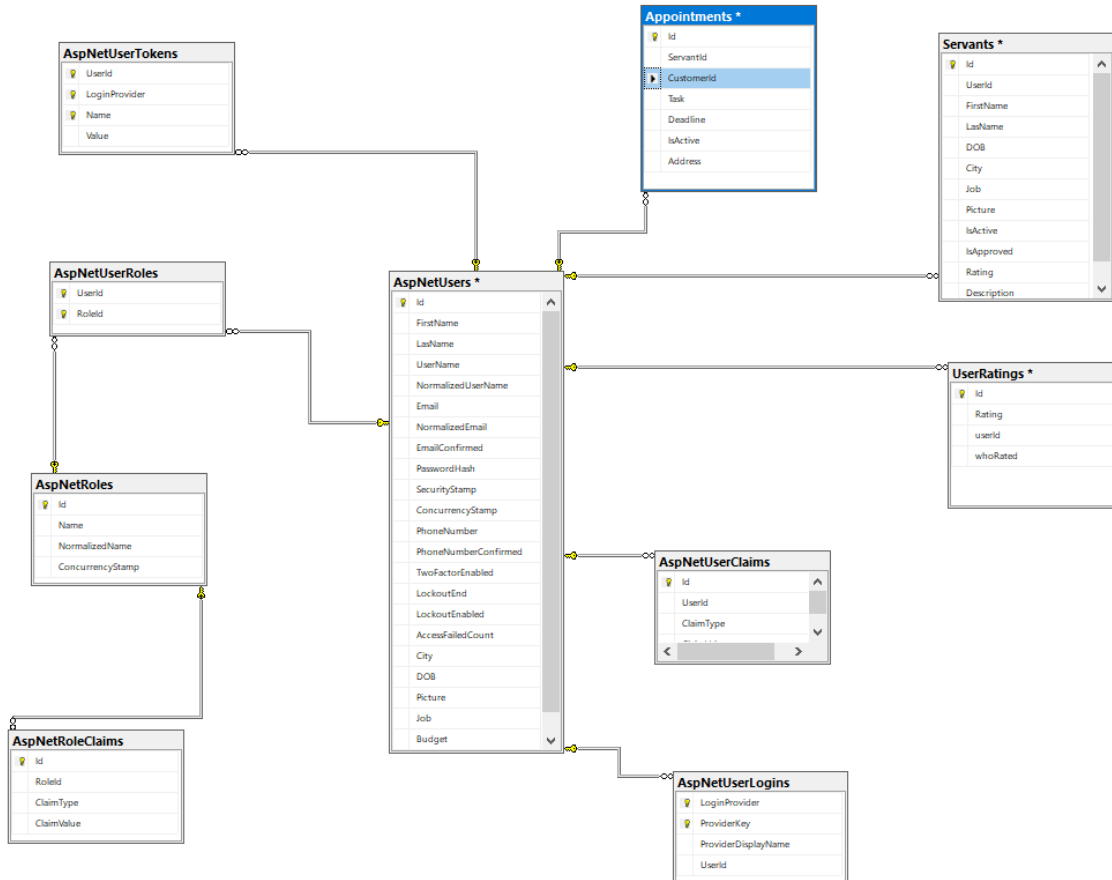

Servant: There are three types of servant (Nanny, babysitter, cleaner). They can do everything that user do. Besides, they can see their appointments.

1.3 Objectives

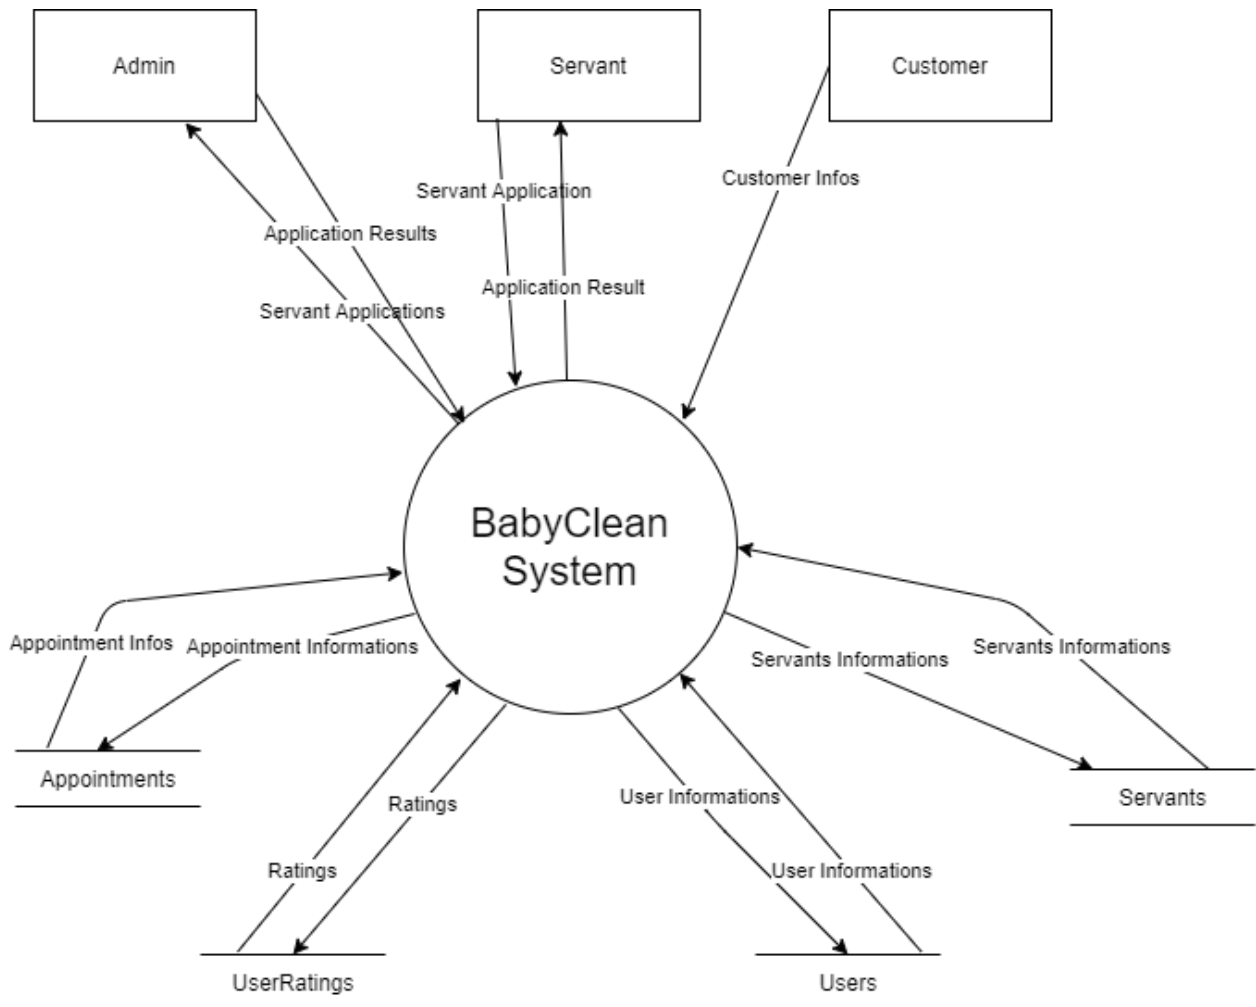

- The system shall allow for *babysitter* matchmaking by either advertisement from the babysitter or request from the parents.
- The system shall provide password protected access to web pages that are to be viewed only by registered users.
- The system shall provide an admin role to web pages that are to be viewed only by admins.
- The system shall provide an admin role to web pages that are to be viewed only by servants.
- The system shall delete expired appointments after 30 days.
- The system shall list all appointments to servants.
- The system shall list approves to admin.
- The system shall list servant list to users.
- The system shall list servants by search criteria.
- The system shall provide payment protected access to web pages that are to be viewed only by registered users.
- The system shall make appointment to selected servant.
